

GOVERNMENT OF KENYA

KENYA TRANSMISSION NETWORK IMPROVEMENT PROJECT (KTRNIP).

GENERAL PROCUREMENT NOTICE

1. The Government of Kenya has received financing from the African Development Bank ("AfDB") and Korean Exim Bank ("EDCF") toward the cost of the implementation of Kenya Transmission Network Improvement Project (KTRNIP),

The main development objective of the proposed project is to improve; - power transfer capacity, quality of electricity supply, supply reliability of high voltage (HV) transmission network and enhance socio-economic development in the targeted areas. It also supports to improve efficiency of supply by reducing technical losses and providing evacuation alternatives for renewable (particularly solar, geothermal and hydro) power generation sites in the project targeted areas.

2. The project includes the following components:
 - I) Construction of HV Transmission Lines 132 and 220 kV, Kabarnet to Rumuruti, Narok to Bomet and Weru to Malindi & Kilifi
 - II) Construction of HV Substations 132 and 220 kV, in the associated Substations
 - III) Project Supervision and Management Consultancy services, and Technical Assistance & Capacity building program
3. Procurement of goods and/or works and acquisition of consultancy services will be in accordance with the Bank's Procurement Policy for Bank Group Funded Operations, dated October 2015 which is available on the Bank' Website: www.afdb.org.
4. Request for Expression of Interest for Consultancy Service is expected to be available in October 2023, and Bidding documents for works and goods contracts to be available after December 2023.
5. Interested bidders may obtain further information, and should confirm their interest, by contacting:
